Home Competition booksAuthorPublicationRajasthan Exam BooksCA,CS Exams BooksTeaching Exam BooksDelhi Related Exams BooksAcademic 2021 Exam Books Language Default Store View by PR Ashalatha, G Deepa The Textbook of Anatomy and Physiology for Nurses depicts basic concepts in anatomy and physiology mainly for nursing and paramedical students and as a foundation for the medical undergraduates too. Topics discussed in anatomy include approaches in studying anatomy, connective tissue, nervous tissue, muscle tissue, skin, osteology, appendicular skeleton, axial skeleton, muscular system, joints, cardiovascular system, respiratory system, digestive system, urinary system, reproductive system, nervous system, endocrine system, sense organs, and medical genetics. Details are included in an organized, methodical way, in a simple and easily understandable style. This book can be used as a reference for the paramedical students and nurses as it contains in places. Physiology, related to nucleus, transport across the cell membrane, nerve, muscle, body fluids, digestive system, immunity, respiratory system, cardiovascular system, endocrine system, special senses, and urinary system, are discussed in details. All the relevant aspects of a topic like gross anatomy, histology and applied anatomy are given systematically with new photographs of bones and histology slides. Select Section Section A: General Anatomy Section B: Musculoskeletal System Section C: The Organ Systems [ Please select above dropdown to change Section ] Chapters of the selected section will be displayed in the chapter section below. ADD TO FAVOURITES by PR Ashalatha, G Deepa The aim of this textbook is to focus on the textbook of anatomy and physiology for nurses. Anatomy and Physiology are core components of nursing curriculum and every nursing student is expected to have a basic understanding of the structural and functional components of the body. This book comprised of 4 sections that include Body and Its Constituents, Blood and Lymphatics, Organ Systems, and Nutrition, which are further divided into 18 chapters. To make the learning easy and engaging, the anatomy and physiology have been integrated in this edition for a better understanding of both the subjects. Great care has been taken to select important concepts and to describe the anatomy and physiology in a student-friendly manner. A comprehensive rearrangement of chapters has been done for developing an easy understanding and all the chapters have been thoroughly revised and updated to keep the students abreast with the recent advancements in the subjects. Two new chapters, "Introduction to Chemistry of Life" and "Introduction to Nutrition" have been added to acquaint the students with basics of both the topics. The must-know concepts and definitions are summarized in separate boxes for a quick review. The embryological and histological facts of various structures have been added in different boxes to provide a new dimension for an integrated learning. Select Section Section 1: Body and Its Constituents Section 2: Blood and Lymphatics Section 3: Organ Systems Section 4: Nutrition [ Please select above dropdown to change Section ] Chapters of the selected section will be displayed in the chapter section below.
